

Cre8 Content Meeting - May 07

[VIEW RECORDING - 59 mins \(No highlights\)](#)

[@0:01](#) - Yhang EA (yhangea.kunjolallc@gmail.com)

I'm going to join. Maybe we can start right away, the agenda I sent it in the admin Slack channel.

[@0:59](#) - Cre8ContentStudios

Yeah, it should be getting on. Perfect, thank you.

[@1:52](#) - Yhang EA (yhangea.kunjolallc@gmail.com)

Sensei is here, Josh.

[@1:55](#) - Cre8ContentStudios

Alright, I mean, we can get going, um, I was waiting on Reek, but, I don't know, let's check Yeah, I'm not sure what's taking so long, but yeah, I just wanted to basically just go over a few of things that we spoke about last week as far as, you know, the updates.

know some of us have not really been able to get as active as we want to on the ClickUp and stuff, but some of us are not on the ClickUp and we've not really been following through as we were supposed to.

So we just need to double down on it, but for the most part, I want to kind of speak on the tasks that we spoke about last week and just where we are with those.

And yeah, so that's basically it. So whoever has any updates, you guys can go ahead and keep going and say, okay, at least see where we are with things and then go from there.

[@2:50](#) - Yhang EA (yhangea.kunjolallc@gmail.com)

I think you can show my, I mean, you can see my screen, right? So these are the agendas. These are the tasks last week.

can

[@3:02](#) - **Cre8ContentStudios**

Sensei, there?

[@3:07](#) - **i am Sensei**

Yeah. Perfect. Thank you.

[@3:11](#) - **Yhang EA (yhangea.kunjolallc@gmail.com)**

I think you have the...

[@3:14](#) - **Cre8ContentStudios**

So which ones did you sensei to sensei to you? So you did... Go ahead. Yeah, it is also in ClickUp here.

[@3:26](#) - **Yhang EA (yhangea.kunjolallc@gmail.com)**

I also have it here, the five tasks here. Okay, so we had how many tasks from last week?

[@3:35](#) - **Cre8ContentStudios**

Just five. Okay, And all of those has been done.

[@3:40](#) - **Yhang EA (yhangea.kunjolallc@gmail.com)**

All the tasks from last week has been done, you said?

[@3:44](#) - **Cre8ContentStudios**

Yup.

[@3:44](#) - **Yhang EA (yhangea.kunjolallic@gmail.com)**

I mean, not all actually. Regarding with this, I don't know if resharing this Google Drive with Sensei and Eric, I think this is all good, right, Sensei?

[@3:58](#) - **i am Sensei**

Yeah, sure. It's completely... It's done, yep.

[@4:03](#) - **Yhang EA (yhangea.kunjolallic@gmail.com)**

And how about this one? BTV Production Plan and Performance Criteria.

[@4:14](#) - **i am Sensei**

Yeah, I'll complete it, yeah. Can show your screen? I'm trying to see what you're reading on. Can you show your screen for the BTV stuff?

[@4:27](#) - **Cre8ContentStudios**

I saw what you put up on the page.

[@4:44](#) - **eriq joy**

All right, mute your background.

[@4:55](#) - **Cre8ContentStudios**

Sensei, going to share your screen or no?

[@4:58](#) - **eriq joy**

Where am I pulling up the files? This is not...

[@5:00](#) - **Cre8ContentStudios**

um click up you want to share what you what you did you say you did the btv stuff right i mean yeah i mean like let me see i'm gonna go find it man y'all should just pull it up and have it all right like we really gonna go over for the first time right now why do we have to go over like we've already looked at it bro like what like i want you to go over and give a little briefing about what it is and i want to let you know where there's still some parts that are not all the way ready like you think they are i would say i want to be hands off for this but you need to handle everything fully and then wherever my i'll go i'll come in on my part yeah i want to do this days ago man i can pry right now all right hold on hold on i got you hold on bro i don't it's complete and i've said it to you many times you don't get it well stop what i'm doing right now i'm sure we did days ago what are you doing right now don't worry about it bro i got you hold on yeah

[@6:01](#) - **i am Sensei**

None of this is by force, bro.

[@6:02](#) - **Cre8ContentStudios**

Like seriously, for anybody.

[@6:23](#) - **i am Sensei**

Alright, what are we talking about? set design? I'm about to pull it up. Yeah, yeah, yeah.

[@6:27](#) - **Cre8ContentStudios**

Basically the set design for BTV. Yhang, Yhang, what was that BTV set? What was that task?

[@6:34](#) - Yhang EA (yhangea.kunjolallc@gmail.com)

BTV production plan and performance criteria. Production plan and what?

[@6:43](#) - Cre8ContentStudios

Performance. Performance criteria.

[@6:46](#) - Yhang EA (yhangea.kunjolallc@gmail.com)

Okay. So that's the BTV plan and performance criteria.

[@6:50](#) - Cre8ContentStudios

Sensei, please let us see that. This was not design. Sensei has already put this in the slack. be back.

We'll So, Yhang, he's using his phone, maybe you can show him, can you do that? So Sensei can stop sharing your screen, and we'll just go over it with Yhang's screen so you can let us know what it is from your viewpoint, and I'll let you know the parts I've looked at that I feel like we still need kind of, um, we need, we need, um, this one right here, Sensei, or before it is.

Um, I can't see your screen. Oh, sorry, yeah.

[@7:35](#) - Yhang EA (yhangea.kunjolallc@gmail.com)

Okay, sorry, there we go.

[@7:44](#) - i am Sensei

Um, that, the first one, design, this one I did, I mean, we can go through the designs, we can go through all of it.

[@7:49](#) - Cre8ContentStudios

We just want to go over the BTV design, yeah. Yeah, just click on that one there. Yeah, make sure everything is right for that.

Thank you. I'm going to have them all pull forward. you. all right cool thanks appreciate it this one right here i'll start here no that's that's a whole different that's a different project let's look with death you just had the first time um the first one you had oh this one yeah stop moving so fast y'all just look at let's look at it you know btw behind the virus so is that is that it no that's not either it was the first one you you had it was the first one the first one the first you pulled up you showed up yeah yeah the other way other way here okay this one is different content position this is the first video in slack i mean in channel it's not it's not a video it's a pdf okay this one keep going all the way down now you going to the um january stuff we go to um

[@9:01](#) - **i am Sensei**

This is february 27th, so, it's something that he put up there last week y'all. Hold on, reply to it right now, so you can see it first or something.

Okay, let me check it slowly.

[@9:21](#) - **Cre8ContentStudios**

This one, Sensei? Yes. Yeah, that's the first one, that's one of them, yeah.

[@9:27](#) - **i am Sensei**

Why don't we start with that?

[@9:27](#) - **Cre8ContentStudios**

I can't start with this. Rick, you're here too, you said you've seen everything, you up to date.

[@9:35](#) - **i am Sensei**

Rick, you don't want to up to date on everything.

[@9:39](#) - **eriq joy**

Yeah, I've basically seen everything, and I've seen an example of the script that we have for basically the host.

Since they talked a little bit the last time that we met at. Oh, that ain't enough. Okay. No, that ain't it.

Let me send the other one. Let me go.

[@9:59](#) - **i am Sensei**

Go to, uh, Ideal Channel, it's one of the replies I sent to Reek, there it is, see what I'm right now.

[@10:22](#) - **Cre8ContentStudios**

Finally. I just sent it fresh in the thread, it should be fresh in the thread in the Ideal Bank.

The open one, he just put in the Ideal Bank.

[@10:32](#) - **i am Sensei**

Yeah, that's the old one. Yep, this one.

[@10:35](#) - **Yhang EA (yhangea.kunjolallic@gmail.com)**

Okay.

[@10:39](#) - **Cre8ContentStudios**

Family Union, what is that? Or here. I don't know what that family reunion is.

[@10:50](#) - **i am Sensei**

This one, okay. What is that? Where did it come from? All right, go up, go to one of them replies.

Freak has sent, it's in that reply.

[@11:04](#) - **Cre8ContentStudios**

Oh that is taking a line here. Just to get feeling nothing, keep on up.

[@11:08](#) - **i am Sensei**

Up, up, up, up. Maybe this. Yeah, it's one of the reply, send that reply. Right.

[@11:21](#) - **Cre8ContentStudios**

If you click on that, yeah. I think this one right here.

[@11:24](#) - **i am Sensei**

Five replies, it's in that five replies. Yup.

[@11:33](#) - **Cre8ContentStudios**

The first one.

[@11:35](#) - **i am Sensei**

Or the the second one? The second one, guess, right. The second one, yeah, the second one revised. The one below that one?

Yeah.

[@11:49](#) - **Cre8ContentStudios**

The one below that one. The one below And just started to two more people, Are they done

[@12:00](#) - **i am Sensei**

That one, that's a video.

[@12:09](#) - **Cre8ContentStudios**

Yes, that one right there, second one, yeah, I'll go back up. Right above that one, sheesh, all right, back up.

All right, one more up, I mean, they both are the same thing, but one up though, yeah, up, up, up, up, up, up, up, more, one more.

[@12:29](#) - **i am Sensei**

One more, one one more up. No, that's it.

[@12:40](#) - **Cre8ContentStudios**

This one behind the z, behind the viral show?

[@12:43](#) - **i am Sensei**

The next file down, after the next file, so bring the arrow down, go one more down, yep, that one.

This one? Okay. One more down, more down. Okay, one more down. Show design B.

[@12:54](#) - **Cre8ContentStudios**

Show design B, okay. more down, two

[@13:18](#) - **i am Sensei**

All right, so basically this layout, just, um, just the format, how everything on look, got the couch, got the, so we talked about the letters, we'll do the letters, um, got the couch, but it's just a minimalist set too, with the, on the white side.

So the only furniture piece, really, we would just need the couch, just a large red rug, um, we got the cubes, we can make some cubes, dining table, and, uh, we're have to, like, a TV you made a styrofoam, a large TV, so basically an original set, and the PDF underage is everything listed out of my eyes.

All That one right there, yeah.

[@14:04](#) - **Cre8ContentStudios**

Listed out what items need to go to set individually.

[@14:10](#) - **i am Sensei**

The quantity of them.

[@14:17](#) - **Cre8ContentStudios**

Rick, said you had some additions to it, what you were saying? Nothing really additional.

[@14:25](#) - **eriq joy**

I just wanted to be clear on the script. I did see the example that you have for the host already, and I think the example is like a key factor we should point on to further the script on, note to note, from just my due diligence of doing the research of the competitive shows or the shows that we got the inspiration from.

A lot of the keys were like pitch phrases and things of that nature that would engage the audience, so I just wanted to make sure that we make that a factor inside of our production.

Other than that, since they pretty much had everything laid out, I just know we ain't wanted to go back off with the set designs.

I don't know if everyone was comfortable with the regular site wall build. I know we can go super creative with, like you said, with the TV, with the styrofoam TV.

I think that's just good enough. We don't need to go any bigger than that. We're doing like teleprompters or anything like that.

But, yeah, I mean, other than that, if there's any other ideas for set builds, then I think we can just put them in right now.

But that would be the first start of getting everything done, and then we can start basically just shooting little pre-runs to schedule a perfect shoot.

So what do y'all think about the set design?

[@15:45](#) - **i am Sensei**

Y'all want to add anything, take anything away? I think it's cool. I think it's cool.

[@15:49](#) - **Cre8ContentStudios**

The only thing is I just wanted you to explain everything just so it's understood. I do want to reiterate what we're trying to do with this particular show.

So we want to go... It's good that you're being minimalistic, but we need to make sure that we do as much.

I really wanted you to create a set off of the ridiculousness. Go back to the set. I mean, the set, the minimalists could keep costs down.

I get what you're saying, but what I'm saying is I wanted you to build the best sets and have an idea of the best set that we can as comparable to ridiculousness, right?

Even if, don't think about costs is what I'm saying in the beginning. Just think about... Yeah, I agree.

[@16:32](#) - **Mambay Kanu**

Kind of start off with the set of ridiculousness and then re-structure it.

[@16:36](#) - **i am Sensei**

Well, we can't do ridiculousness. can't copyright they set. I mean, that's illegal. Nobody said, why not using their set, bro?

[@16:43](#) - **Cre8ContentStudios**

We're using it as an example. Why you be acting like you don't understand what are saying? But that gets annoying since then.

[@16:49](#) - **i am Sensei**

Apparently not talking about their set, bro. Come on.

[@16:53](#) - **Cre8ContentStudios**

Why would you even say that? But anyways, bro, then no, we're not going to use their set. We're going to use their set as an example.

That's... I said, like, it shouldn't take, like, I was just waiting for you to do everything so I can say it again to you, because, like, you've been hearing me, bro, but I don't think you've been fully listening.

I understand where you're coming from. But what I'm saying is we just want to be, the point of this is to show something that's comparable to ridiculousness, right?

Something that's going to be like, whoa, this is a dope, big production. So I want you to use the idea of their set, no matter what it is, okay, even if it's going to look like it's an expensive set, I get it.

But we need to go from there, and then we're going to break it down to what we do. But we want to be able to say, hey, this is what we're going to.

And we want to find the best price that we can get.

[@17:36](#) - **eriq joy**

If I can chip in. Basically, on the art board that he put in before, the one that he's showing now, I believe there's a lot of different options on there that we could choose from.

Last week, we spoke a little bit about it, but we didn't even land on anything. I think we should land on that today, just to finalize that, because there's a lot of different ideas.

If we can just get close to an image, then we can start from there. So, see you Yeah, I saw the options that he put in initially.

thought those were good. mean, this is cool too, but it's definitely dumbed down. See what I'm saying? Nothing wrong with it.

This is more similar to that show that you already did before, that you had a picture with you, that we looked at with you in the dress.

ACTION ITEM: Collaborate w/ Sensei on BTV set design. Create 3-4 options based on Ridiculousness set. Due today. - [WATCH](#)

[@18:16](#) - **Cre8ContentStudios**

That's what this looks like, which is cool. We wanted something a little bit better, if possible. We wanted to build a whole set.

[@18:21](#) - **eriq joy**

That's what I was saying.

[@18:22](#) - **Cre8ContentStudios**

So that's why I said, the ridiculous set. Give it to that guy that you brought the other day. Give it to him and say, hey, we want to build a set like this at a good cost.

So really, the only thing we miss when it says is walls.

[@18:35](#) - **eriq joy**

I mean, the giant TV is to have most of the scenery. So really, we're just building it. It's to just be like flat walls around it or curtains.

That's the only thing, yeah. Okay, yeah, that's cool. That's why I was saying, like, if we could just go back to that, if y'all can pull up that board, we can literally just singly print out an image as a predominant right now, like all four or five, six of us can just point out an image, and then we can send that to the person that does

[@19:11](#) - **Cre8ContentStudios**

So Sensei, what I would say, I think you should maybe use that first, tell him, hey, look at Ridiculousness, and look at this, and this is the name of the show, just, you could give him the, you could give him the, the, the, the, the, the, just let him do the drawing and everything, let him present it to you, in a day or two, so we can speed up the process, so everything is about time right now, I don't have time to, to be, need to go ahead and get going, sooner than later, so, but we need to have the foundation and everything set, so, these are the three main things we're talking about, this show, the Bob the Balloon , and, and the Fortune 5 CS , so things are still kind of on hold, so there's a bit of time, but right now, it's time, if we could go ahead and go into the BTV immediately, I would love to, because we still need to be set number one, and we need to make sure that we have the production crew in, in, in, in, in to be able to get it, who's going to do I would love

[@20:00](#) - **eriq joy**

It's a lot of things we still need to do, but the set is the main thing that we want, the point of this is to have the kind of .

It's not just about doing something. I want to do some quality . You see what I'm saying? So that's the biggest thing.

I want to make sure what we have looks quality from the beginning. But that's all it is.

[@20:17](#) - **Cre8ContentStudios**

We can move on, but I think you should go ahead and just reach out to that guy and see if you could create a set off of what you have and off of what the, um, uh, what's it called?

[@20:26](#) - **eriq joy**

The ridiculousness that is. And let him, let him draw it out. Literally draw it the entire thing for you.

And then you can present that. can, we don't have to wait until next week, but we can do an impromptu meeting if we need to, so you can show it.

You can literally get the set, a picture of the set of the ridiculousness and put it in chat, GBT, and let them draw it out.

Or that. I mean, that takes five minutes. The set of ridiculous, I just drew it out. This is literally what it is right here.

Okay. But I'm just saying, okay. I thought this was like a holdup, so nevermind. Disag all that I said, but what he's trying to, well, the point is we, we, we, gotta start good.

That's the main thing, so whatever we can do to cut the process of waiting on somebody for this and all that, let's go ahead and get that out the way.

So JB, so the set is, I mean what, you want to add more to it? Honestly, I wanted to say this, I believe that if we just give the jobs into certain hands, if you guys just let me and Sensei handle that part, and then we'll just shoot y'all, shoot you guys like the draw up ideas and things of that nature, guys just picture if you like them or not, and then we can go from there because we'll just be honestly wasting time right now, we're doing all the back and forth.

It seems like you guys don't even want to even be part of the set design, you guys just want to see it happen and then get to the other part of production.

That's exactly what it is, bro, I already told Sensei I want to be hands off, I don't want to deal with this , so I just want him to bring something that looks good enough, so that we can say okay cool, let's get somebody to create, to build that so we can move on to the next thing of what we're trying to do.

need like, you know, you have the script ideas and all of those are really dope, so that's it. Thank you.

you. By the way, so I want to commend you for that. So that's needed. We need to have more focus on the admin part of things for the show itself.

You see what I'm saying? So that's what, you know, so I see you're trying to do everything, but you've got to focus at the moment specifically on just getting this set over the line.

That way we can get it started to build out and we can start working towards what we need to.

It'll make so much sense, bro. I mean, yeah, so basically me and Sensei, um, I guess we can just put it as a task that can be due today.

We can just clash head-to-head basically today with this idea that comes to some reasoning for basically like three or four, then Sensei, can send it off to your editor, we can get that squared away today, and then we can move on to the points of production.

That works. To be honest, what are, like, so what would be the other step after set design? would be the...

I'm just buying stuff and getting it.

Yeah, getting them set, built out, when the set is built, so before the set is even built out, we need to, um, we need to break down the whole idea of the show.

Like you say, you need to get some clips together, you need to, you need to have a...

[@23:00](#) - eriq joy

idea of exactly what we're doing you know what we're doing and it's basically ridiculous just a different a different a different name right but we need to just break down what that looks like so y'all you see my screen no is this your screen yeah yeah it is yes so this is ridiculous set i mean what i made is way better than this yeah that's what i'm saying so we're done i mean make it off of the idea of this is what i'm saying so i'm saying the set design is complete yes it's complete okay cool it's like ridiculous look wack that's gonna look wack it does look wack that's what i said i wanted to do from here and make it better so that's not this is cool it looks old you see what i'm saying so why we can't move into just buying the furniture and start building because they don't want to move on with that idea since it's cool it's fine we're gonna have to build up more ideas on the idea board and let them choose in there so you don't like this set design i'm confused

Let me see the set design one more time. You see those? Zoom in just a little bit if you can.

Okay. I mean, no, actually, I didn't even see that, that white image. Yeah, I didn't see the white part on it last time.

So that's, so if you guys go look at that art board that he put inside before that white image is already inside of that art board.

It's basically just the, it's like a non-colored image of a ridiculous set, basically. Got you, got you. Okay. I mean, I'm okay with that, honestly.

And then the season changed.

[@24:39](#) - i am Sensei

We upgrade it. I feel like we can start with it. I think it's a little nice. Yeah, I'm actually.

Yeah, I think that's nice.

[@24:44](#) - eriq joy

For us, young and baby, you guys can settle with that and we can kind of move. Yeah, can we agree on it?

All right, cool. It's whatever. We started with something.

[@24:55](#) - **Cre8ContentStudios**

It doesn't matter. Everybody else is cool with them.

[@25:02](#) - **eriq joy**

That yellow cow is waning in Ikea right now, that's all nice. Where is it at? is it? Ikea for \$200?

I'll even go ahead with it. I'm trying to get this going. Yeah, you can go ahead and get it.

[@25:13](#) - **Cre8ContentStudios**

Nah, I shouldn't have said that. I'll reimburse you.

[@25:17](#) - **eriq joy**

Alright, next. So you said, what'd you say, so Talents, so I talked to Tyler McKenzie, I don't know if y watched, it could have been with Drewski then?

Not really. So I got Switcheroo, Switcheroo, she's down to be our first talent, I got her, a couple of the D-list celebrities.

I'm going to say D-list, D-list influencers. Oh, okay.

[@25:42](#) - **Cre8ContentStudios**

You know what a V-list celebrity is? Yeah, that's why I changed it up.

[@25:45](#) - **eriq joy**

But, um, Tyler's done Switcheroo, she was on Drewski's show, I got a few influencers down, available already. Coming free of charge, so they're down to promote and no cause to us.

That's cool. Um, not real. Um. Just. He said he's down, but he would like to charge a rate if you want to do camera up.

Yeah, bro. I'm not, I'm not. I mean, he's good, but I just don't have to. Like I said, I'm going to produce the show myself.

Or you can produce it if you want. Fine. Yo, Sensei, so we're trying to pull out three cameras set up with just stands.

Yeah, we can do it ourselves, yeah. I just like Narell to do the lighting. Narell's good at lighting. Yeah, we can pay him for his lighting skills, but we have to pay him to DP.

Yeah. Um, I mean, what y'all feel like? I mean, what's not left? That's it.

[@26:46](#) - **Cre8ContentStudios**

No, cool. It's not.

[@26:52](#) - **eriq joy**

The whole thing. You're breaking up. I said you put the whole thing together as far as like the logistics as well.

Yeah. As far as you know the like if you could put down the first few episodes and so meaning we need to get clips we get all of that stuff like you have the um the script already and stuff so we just need to go over that make sure that it can kind of be ongoing honestly i need to look at ridiculousness myself a little bit just i want to see just just look at it again and see exactly what they did and how they went about it to make it interesting but to be honest that that's all you should be doing um and then present it to us um so the other guys right i'm sorry i didn't mean to interrupt you but go ahead um i think if you guys haven't you should honestly um basically like a perfect way to kind of describe it i don't think explaining what you know this or giving your personality jb to a certain extent is is what the show is really about is really about this script honestly um the script the script is going to bring in the jokes that's going to lure in the reaction

From the talent, so, and that's basically the whole reason of the show, so that's basically what you gotta really see, staying on script and making sure that some jokes stay online towards the videos or what you're about to play or whatever segment we're about to go into.

Yeah, I remember too. Whatever, but just stay on script.

[@28:21](#) - **Mambay Kanu**

And then, um, real quick too guys, like, I know this is probably an easy part, but this is maybe something I can help with, like, how are we gonna get the clips?

Like, we have, like, a pool that we're gonna always reach from, or like? generator?

[@28:34](#) - **i am Sensei**

Yeah, so it has some, some might be designated to generate clips, like, the week before. Like, categories, stuff like that.

So one little, um, PA admin person, funnel all clips in a folder.

[@28:45](#) - **eriq joy**

Most of our clips on the internet. So that position would probably be assigned.

[@28:54](#) - **Mambay Kanu**

Yes, I mean, I'm just thinking proactively, like, they're all, they have these places, ATL is ATL Scoop. We have networks that you can already just kind of pick from and then it just needs to be like we said the script comes out what's the the title of this next section and then we can just kind of categorize it so i think that thing that work can be done in batch i don't think necessarily the week before is i think we could probably do the month before just to be ahead of things um and then just kind of batch them together i think the main thing is just having everything organized in like by category like okay videos yeah black fights or something you know what i'm saying so yeah that's honestly a dope idea honestly we can get that done right after set design because we need to start pitching i mean we need to start shooting um to see what like are going to be the best angles what are we going to do um when we actually shoot before the actual drop so we need those um them clips anyway to even to gain their reaction beforehand and that's not that's not relying on any set design anything that could be done anytime time so

[@30:00](#) - **eriq joy**

yeah exactly all right yes you can get to me okay cool oh i did say um i was thinking the only thing i did was decisive about a tv if we make that giant phone tv we're gonna have to put like a tv inside there or a projector we're gonna need some like 72 inch tv or giant tv that's cool bro you can find cheap tvs a 72 inch can be about like 300 well not 72 it's have to be big big that's fine you can find 80 80 and 200 400 which you need to be at which you need to know exactly that's what i'm saying all these just know that everything we need yeah you need to build a

budget around it and as long as it seems sensible around that budget bro we can just work around it let's just make sure that we get something that's just going to be astounding and you can compare to our yeah i just want to be i just want to be clear that the point of this is to show some great great great production that people will not expect okay yeah i have some tv that

on that we're doing, like some real tv looking . definitely ain't gonna stay there, they're gonna be, they're look professional, for real, they're gonna look good.

That's the angle I want to go, bro. That's basically it, but um, no problem. So the next step is this.

Did you look at the chef cooking class? We're not, we're not, there's no point to talk about that, bro, that's unnecessary, we're talking about this right now, you feel me?

I think, I think, because you're, I just have a suggestion here, um, I know you like, you're, you're putting like a lot of the ideas in the idea, idea channel, but for the most part, that's meant to be like a release for most people.

[@31:38](#) - **Mambay Kanu**

Um, I mentioned this a few meetings ago, that we should have a dedicated day to go over like ideas that necessarily aren't related to the main objectives, you know what saying?

[@31:46](#) - **eriq joy**

So that way we're not using that time to just go over, you know, different ideas. So that was my suggestion.

We still haven't established that, but I think again, like if you're interested in seeing these ideas to fruition, you know, I'm putting it on on YouTube.

[@32:00](#) - **Mambay Kanu**

You know, as a challenge to say, okay, hey, let me establish this meeting time with the team and let me have these ideas done every Thursday or something like that.

So that was just my suggestion.

[@32:13](#) - **eriq joy**

Kanu was talking about events last week, and this guy did approach us about how to create a studio for an event.

Yeah, I know, but that's like a, was that like a one-time or every, what are you trying to do exactly?

He want to do it every month. want to make, I mean, if you read it, it'll show you like the layout, how much money we make, how much money we'll make together with him.

So what is he trying to do with 50-50? I saw the whole thing, but I don't know. It just told me what he made.

It didn't show anything about it. 50-50, class. But I mean, that's something we can talk with him. ain't gonna say 50 That's what I'm saying.

You should already know. Like, why would they send that information if they don't already have told you what they want?

Well, he sent it to us to see what we can, what we want to talk about, what we want out of it.

We want 20%, 30%, 40%, 50%? want So he's giving us the chance to say what we want. Yeah, I mean, I don't want to speak before Create.

Well, I understand, but I want to understand what was said. Like, so if he sent you that info to show him.

Yeah, and said we'll talk about it and get back with him. So he wants to do events. He's not trying to pay.

if he's shown how much he paid, he's not necessarily trying to pay for space. He's not trying to do that.

Nah, because he paid everything up. Nah, he's trying to make money with us. Make money. And bring money with us.

And he didn't, he didn't give you any offers. Like, this is what I make. I'm willing to give you this amount or whatever.

He didn't do any of that. Nah, because he wanted to see what we, what our idea, what we want to take.

[@33:37](#) - i am Sensei

We're the house. So how did you come up with the numbers from the PDF?

[@33:41](#) - **eriq joy**

He came up with a number. That's from his past classes.

[@33:45](#) - **Cre8ContentStudios**

But usually people would tell me what they want.

[@33:47](#) - **eriq joy**

It's not us to say, okay, I see your numbers. I want this amount. It doesn't, that's backwards.

[@33:52](#) - **Cre8ContentStudios**

So in a PDF is the amount we can make in there as well, right?

[@33:58](#) - **i am Sensei**

The PDF shows what he's made.

[@34:00](#) - **eriq joy**

What's he made, yeah, exactly, yeah.

[@34:03](#) - **i am Sensei**

What's the guy's information? Chef Ponder, pull up the file, it's in front of me. But we can set up a call with first if we want to pursue with him.

[@34:13](#) - **eriq joy**

Okay. We're trying to do something for Mother's Day, but that's probably too soon.

[@34:18](#) - **i am Sensei**

But yeah, we set up a call with him. Mother's Day? Is that this weekend? That's this weekend, right?

[@34:23](#) - **eriq joy**

Next week. This Sunday, actually, right?

[@34:26](#) - **Mambay Kanu**

Is it Chef Jacob Ponder? That guy? Yeah, Jacob Ponder, yeah. You know what?

[@34:30](#) - **eriq joy**

No, just looked them up. I'm just seeing the Instagram. But go ahead.

[@34:34](#) - **Mambay Kanu**

I don't want to spend too much time on that.

[@34:37](#) - **eriq joy**

Well, I mean, I can't say no more. We gotta set up a call and see what we want. Did we do anything for the event space marketing part?

As far as the event space?

[@34:53](#) - **Mambay Kanu**

Not marketing yet, but it is.

[@34:55](#) - eriq joy

They can book through the website right now. Okay. The only thing that that, um, Well, if you guys are done, I can go over my points, one question about rental.

Go ahead, Mambay.

[@35:05](#) - Mambay Kanu

Okay, yeah, so they can book increments of one hour, two hour, four hours on weekdays and as well as weekends, obviously the change in rates, they can do that straight on the website.

And then they can also book the studio walkthrough in those particular days. I think we did it on Monday, Wednesday, and Thursday, if I'm not mistaken for that.

The only question that I had was, it was dealing with the equipment rental part. Now, I did see that we were able to do certain things, but I didn't see exactly where we have like the equipment rental and the specifics on how we rent the equipment and the cost and what type of equipment, because I wanted to put that on there somewhere.

So if we can get those details or resend them, because I just missed that one.

[@35:47](#) - eriq joy

but that's the only thing left kind of put out there.

[@35:48](#) - Mambay Kanu

And then from then on, I just like to know what, what type of equipment is used mostly.

[@35:54](#) - eriq joy

So when we actually get to the marketing, I can kind of emphasize that.

[@35:58](#) - Mambay Kanu

And then what type of, what are the increments? The bookings that people tend to do is in more of the short term was it before day or like stuff like that so those are questions that i have.

[@36:08](#) - **eriq joy**

All right, so we have a question for you.

[@36:13](#) - **Cre8ContentStudios**

Yhang, did you get all that information? Everything show up on the call?

[@36:18](#) - **eriq joy**

Rick, mind muting? It's cutting them out.

[@36:21](#) - **Mambay Kanu**

Thank you. Say that again.

[@36:24](#) - **Cre8ContentStudios**

Yhang, so basically all the questions you asked, I must say, it should show up on this thing by the time we're done, correct?

[@36:29](#) - **Mambay Kanu**

Yeah, so it's the main one is just it's really with the equipment rentals. I just don't know the details about that.

I know we want to use that as an additional prop for people. And I know there's a lot of, we can, it's a very lucrative and we can do it right.

So I just needed to know what emphasis and what all we have equipment wise to offer so we can kind of figure out how to present that to the people.

Other than that, this is basic stuff that we're always going to be reevaluating. It's just that the typical time frame that people.

[@37:00](#) - **Cre8ContentStudios**

Tend the book and how long they tend the book so we can come up with probably some kind of special packages every now and and so like for instance Mother's Day is coming up and we know mostly people book for two hour sessions right we probably can do like a two hour session for like \$50 off or something if you bring your mother something just that's an example I know that doesn't make sense but that's just like an example right so those are the only questions I had about that okay as far as um as far as the um as far as the um equipment anyways we're not we're renting the equipment only in through the um studio we're renting the equipment only um while they're in studio if that makes sense okay so they can't take it out of the studio they need to out of the studio if they rent if they rent the equipment through the studio it has to be within the studio but if they want to take it out of the studio we can send them our ShareGrid account and they could or they could rent it through ShareGrid

ShareGrid is already insured. So if anything happens, we are insured through ShareGrid, but they do it through the studio.

Unfortunately, it's not insured. Is it possible to get insurance? Is it too much?

[@38:15](#) - **Mambay Kanu**

I just don't know.

[@38:18](#) - **Cre8ContentStudios**

I'm sure it's possible, but I just don't know how it is with each equipment that is rented. ShareGrid is known for that specifically, that it's also insured.

[@38:34](#) - **Mambay Kanu**

So it's better just to outsource it all together to ShareGrid when they want to use it.

[@38:37](#) - **Cre8ContentStudios**

Okay, that's fine. Yeah, so that's why I said, okay, boom, through ShareGrid, at least if anything happens, we got ShareGrid.

[@38:44](#) - **i am Sensei**

When people are wearing equipment outside of ShareGrid on the family, they need a COI. They usually got to provide a COI.

What is that? It's called a certificate of insurance, like we do for a big set, just anything. Just make sure everything covered.

Usually be left to like a \$1 million coverage. So... Every business, production business have like a COI they gotta provide.

What the requirements to enforce that? The person who has production have to apply for that themselves and provide that.

And our name had to be on it, it had to be provided to us.

[@39:18](#) - **Mambay Kanu**

I'm saying, what do we have to do within ourselves to be, because we can't just create a document and be like, it's insured.

[@39:24](#) - **i am Sensei**

Like, I'm sure we have to do everything on our end.

[@39:27](#) - **eriq joy**

They would have to do everything on their end.

[@39:29](#) - **i am Sensei**

Call the insurance company, like, hey, I'm trying to rent something from Cre8. Yeah, can you put it, yeah.

[@39:35](#) - **Mambay Kanu**

I'm just thinking in terms of like, somebody that's coming in to rent something out, right? Are we gonna really put them through loops to say, hey, you gotta call the insurance company, you gotta do that?

Or is there something that they can just... Yeah, it is a tedious.

[@39:47](#) - **i am Sensei**

mean, you want to take your stuff, so it's tedious. Yeah. No, no, I know I get it.

[@39:53](#) - **eriq joy**

to be honest, I think just to split it, to be honest, if we're doing large productions, we will make sure that we have a large insurance company.

So in order to do that we'll make sure that the client can bring the insurance or the COI that basically Sensei is playing, if not then we'll just do ShareGrid for the time being for now through the studio or if we can do that through the studio and or outside of the studio we'll continue to use ShareGrid for right now until we can process all of that in one or see if we can come up with a form for all of one by ourself or whatever the case is but it sounds reasonable because when you're doing big productions and they're renting out all of that equipment sometimes you can rent out towards \$20,000 worth of equipment we need a big insurance budget what you were saying on Monday I just want to make sure that it's like I'm just thinking if somebody's renting it somebody comes in and rents it right and we say okay rent it it costs this much and they pay and then it's like but you still got to fill out this application to do this and then call the insurance company and then do this and do that I'm just thinking about how much about how much

[@41:00](#) - **Mambay Kanu**

We're giving them on that end. So, I mean, if it's a regular thing, cool.

[@41:05](#) - **i am Sensei**

Yeah, it do suck on any end because it's tedious. Yeah, but they got it done, so they do it.

[@41:10](#) - **Cre8ContentStudios**

So if it's regular, like you said, it's fine.

[@41:15](#) - **i am Sensei**

But it's a smooth transition because people already know they're going to rent it, so it's already taken care of the day before, two days before they're going to pick it up instead of weighing up there on the phone.

And usually it's not a same-day thing. You got to call your insurance like a day ahead.

[@41:27](#) - **Cre8ContentStudios**

Okay, my question was, is this something that we needed to do or is it something that they need to do?

They need to do. Yeah, that's all.

[@41:34](#) - **i am Sensei**

They just need to put, create studios on their COI, like who's made out to. Okay, so Cre8Content is under VC Atlantis.

[@41:41](#) - **eriq joy**

Yeah, whatever.

[@41:43](#) - **Cre8ContentStudios**

Yeah, so the business will always be VC Atlantis, you know, but that works out. So I guess we can rent out through the website as well, only if they have, what, their COI?

[@41:58](#) - **eriq joy**

Yeah, but Shagri is faster.

[@42:01](#) - Cre8ContentStudios

Okay yeah so whichever way well we'll just for now we'll just do share grid the way we're doing it and um if anything um last last we'll do um our website if we have to but for the now for now the only thing we want to be able to rent through the website is if they are shooting within the studio that's it nothing more or less because to be honest majority of all that is for us to do our own productions anyways we want to keep it within uh more than more now and the only time we know we're not is when it's being rented which is fine.

[@42:30](#) - i am Sensei

oh also i want to speak on some um i want to speak on the safety actually i don't think nobody's saying this i know what we show i think we should start having our own security was created studios and our shows on set too even for the studio i know we'll getting more traffic hold on i've been knowing we get more traffic up there and this one guy keeps walking by i don't know if he come from the apartment next door um he'd be trying to come in the studio i don't know if y'all seen him he'd be trying to come in the studio yeah this random guy i don't know if he like know he like home

What do you mean come in the studio? I'm confused. He come by and say, hey, somebody told him, create studio, I need a job, hiring or something like that.

ACTION ITEM: Install 2 cameras (front/back door). Find/buy/install 125 BTU AC unit (split type). Check FB Marketplace. Complete before next week. - [WATCH](#)

It's the same dude. I don't know why. I don't know if he's lying or just trying to. Is it black or white guy?

[@43:13](#) - Cre8ContentStudios

He's black, kind of black Indian.

[@43:16](#) - i am Sensei

You guys just be able to watch out for that. Okay, I don't know.

[@43:19](#) - Cre8ContentStudios

I know there's some white guys who work, who live behind that part, No problem. Okay. So yeah, anytime we're doing things, as long as we're locked up as we're supposed to, we should be fine.

And the only other thing is I don't want to put up those cameras, man.

[@43:36](#) - **eriq joy**

help, shut up. Great, great, the mute, bro.

[@43:47](#) - **Cre8ContentStudios**

You hear me, Sensei? What was the last part we said? I said I do want to put up the camera.

So, if you can help me with those cameras, man, I'd appreciate it.

[@43:57](#) - **i am Sensei**

You know, you'd be there.

[@43:58](#) - **Cre8ContentStudios**

So, it shouldn't be at least. Help me put up two, two of them, one in the front, yeah, one in the front, one in the back, um, but, um, okay, was that, was there, um, so, so far, Yhang, so real quick, can we just go over some of those, those, um, things from the, um, from last week again, we talked about the B, B, B, the BVI, what, behind the viral, BTV, sorry.

BTV.

[@44:27](#) - **Yhang EA (yhangea.kunjolallic@gmail.com)**

Let me share my screen. Let me share my here, and, uh, all booking options to websites, so that's for a month-based task, and others, this one right here, the, um, monthly idea dump schedule,-오💎.

. . . .

[@45:00](#) - **Cre8ContentStudios**

So, um, monthly idea dump schedule. I guess that's for me.

[@45:06](#) - **Yhang EA (yhangea.kunjolallic@gmail.com)**

I think I need to get all their availability so that we can have a specific schedule for dumping ideas or anything like that.

I just need to verify this to Mambay. Okay.

[@45:22](#) - **Cre8ContentStudios**

I mean, was, like I it's a suggestion.

[@45:25](#) - **Mambay Kanu**

It's not that that's because everybody has all these ideas just to be constructive with our time. So, I mean, it's not, it's not mandatory.

[@45:36](#) - **Cre8ContentStudios**

It's just, it was a suggestion.

[@45:38](#) - **Mambay Kanu**

So we're not wasting our time on ideas. That's it. That's amazing. Thank you. Thank you.

[@45:44](#) - **Cre8ContentStudios**

So as long as we have a Slack channel for that. Is that everything you have? Yup. It's a, this is all that I have.

[@45:56](#) - **Yhang EA (yhangea.kunjolallic@gmail.com)**

So I guess we have been tackled everything since, I mean, from last week. We're good to go now.

[@46:03](#) - **eriq joy**

Okay, so I wanted to kind of, so after the website listing thing, what is the, because last week we spoke on the events, it was the thing that was bringing the most money into the studio.

So what are we doing to further the traffic of events coming into the studio? Other than the website being able to, being able to be booked.

[@46:28](#) - **Cre8ContentStudios**

So at the moment, um, we only have, um, PeerSpace as a way to book, um, the space for events and stuff like that.

Yeah, Sensei said he had, um, well, I think he did already, he put it inside of the chat.

[@46:45](#) - **eriq joy**

Yeah, Event Tech and some other ones. Okay. But besides that, I wanted us to be able to do it on the website.

[@46:51](#) - **Cre8ContentStudios**

Mambay, you said you, on the website itself, you, how do we book on the website?

[@46:57](#) - **Mambay Kanu**

It goes to the site and it says book the space. of this. you, Kick. right And you click the link, and it takes you to reach out.

[@47:02](#) - **i am Sensei**

Right.

[@47:04](#) - eriq joy

Yeah, but so past that, can we sign up for all of the website links that Sensei sent? So we can be able to be able to book from different other platforms, which give us a large community to gain from, if that makes sense.

And if we come up with any social media tactics that we can do to show that, like I spoke with JB on one point, it's not anything that we could do, but if we can have any points of that nature that we can do for marketing.

Basically, I've seen that another studio offers event spaces, but they also do set designing. So if a person want to do a baby shower, or if a person want to do some type of wedding event or whatever, they'll take off the hardship of you doing the set design and do it for you, and we can just add it to a budget.

But we don't necessarily have to do that, we can just do something differently of this sort or any type of marketing form to bring in more event rentals, because those are the only thing that's paying us right now.

[@48:09](#) - Cre8ContentStudios

Yeah, at the moment, bro, I'm, um, weekends to 40 minutes, uh, four hour rentals. At the moment, my focus is just, just the bare minimum is just getting an event going, which is a four hour minimum, which gets you, um, you know, four hour minimum with an, with, with, with an, of one additional four hour, that basically is, um, Mambay, I'm hearing a book the space now, it's kind of, um, a little confusing, I'm gonna say, um, as far as which is which, or is there, maybe they'll clean away to maybe do this, to where, when they go, they, okay, book, book for an event, or, if you want to, yeah, book the space, take you to this one page, where it says one hour rental weekends, the first thing here, and it says one hour rental weekdays, it says one hour weekends, and 150.

As in, it's kind of confusing for me. It'd be better for me if there's photos, video, and, you know, events.

And then maybe, yeah, maybe photo rental or photo, photo, I don't know how to put it per se, but right now when I just click on this, it just has everything in one page, which is, and it doesn't say what's what.

ACTION ITEM: Update website booking process. Add landing page to differentiate photo/video/event bookings. Implement new pricing once received. - [WATCH](#)

So as I click into the one I'll rent to, weekends, great content, it just has a price. doesn't really tell me anything.

It just has a date and pay, and pick a time and pay, basically. Do you get what I'm saying?

Okay, what do you want it to say on each one at all? Okay, ideally, would want it to, maybe when you say click book the space, maybe it takes you to a different page before it takes you to the galley immediately, maybe another landing page.

And then that landing page will now break it down, you know, differentiate what you want to book. So if it's for, you want to book the space for photography, you want to book the space

So if you want to make a space for events, to do an event, and then when they click whichever one, so for example, if it's for photography, book for photography, then the schedule comes up, and then the pricing says, you know, whatever the cost is, which is a little bit, this is higher than what I initially had from what I sent you for the pricing for the photography, videography, and for the events.

So I don't know if maybe we're mixed up with the numbers as well, but I can resend it just to make sure that's clear, and so I just want to kind of individualize each one, so that it's kind of clean it that way, so it's specific, the way it is now just kind of just has everything in one, so it could be a little confusing.

ACTION ITEM: Resend clear pricing for photo/video/event rentals to Mambay. Break down tiers. - [WATCH](#)

[@50:46](#) - Mambay Kanu

Okay.

[@50:46](#) - Cre8ContentStudios

Yeah, and that's that, but I'll resend the numbers again, as far as for photography, for renting, for Photoshop, for renting, for video, and for renting for events.

And I'll make sure that I break it down to clear, and make sure all the numbers are clear for you.

Maybe that's... Maybe that's what it is, but I think the additional landing page just to kind of differentiate after you click book the space and it takes into another page that shows photo stuff, the next one shows video stuff, and show events, like event style, I think that would be nice and clean.

But yeah, that's basically all I have to say about this. Okay, no problem.

[@51:22](#) - **Mambay Kanu**

If you just get the different rates, just to confirm the different rates, I can do the wording and stuff, so that's no problem.

Okay, cool.

[@51:28](#) - **Cre8ContentStudios**

Appreciate that. For the different tiers, that's not it.

[@51:32](#) - **Mambay Kanu**

All right, bet, bet, bet.

[@51:33](#) - **Cre8ContentStudios**

So moving forward, guys, for Sensei, so things I need you to do, please, sir, before next week, we can help you with it, me and Enrique if we have to, is that we need to add the cameras, at least to the front and the back door, so we can see what's going on outside and inside before anybody walks in.

Okay, so we can at least know who's there, who's coming into this space. We do that at least, and then we can do the rest down the line.

Also, we need to get the AC situated in the studio. We spoke earlier about it. We're looking for something up to 125 BTUs.

So that could be a split, a split, AC split, I forgot what it's called, split thing or whatever. But we need to find, we can find it on, what's it called, Facebook Marketplace.

We need to be able to buy it, and we need them to install as well. So all in one.

So that's what we need to really have it in before the end of next week, or before, yeah, if we could do it before or by this weekend, that'd be ideal.

But if not, before the end of the next week, for sure.

[@52:46](#) - eriq joy

Okay. I spoke with somebody, but I just didn't continue the conversation, but they ended up calling me back and sending me a text message to hear a fire about the inquiry.

Thank you. Thank you. Okay, that's fine, and are we going to sign up for the websites though, I'm not trying to, you know.

Sign up for what? The other websites to be able to be booked. Are we going to sign up for those?

[@53:18](#) - **Cre8ContentStudios**

Well, yeah, but the focus now is to make sure that we have a clear way of booking. We already have, for example, PeaceSpace has been the best way for us to get booking so far.

And so I want to be able to just kind of move because PeaceSpace takes a large fee. So I'd rather just have them booked directly to the website because fees are still going to come up and just not as much.

But we need to make sure the website is right for that as well.

[@53:42](#) - eriq joy

But wouldn't that be the same sort for all the other websites as well? Because the other websites may charge a fee as well.

But we to have our website open for them to go to, even if they're catching us from a different platform, we're still able to catch a booking from a client.

see, website. to

[@54:03](#) - **Cre8ContentStudios**

Yeah, we have Peerspace from Yhang is already doing the other websites like TagVenue, what else Yhang are you doing?

[@54:12](#) - **Yhang EA (yhangea.kunjolallic@gmail.com)**

We can't meet up already, just the TagVenue, ShareGrid is for rental equipment, so that might be for the TagVenue only on Peerspace.

ACTION ITEM: Create account on "Need an Event" platform. Post meeting notes in Slack. Update ClickUp with tasks/due dates. - [WATCH](#)

There was another one, Peerspace, TagVenue, and is it...

[@54:28](#) - **Cre8ContentStudios**

Yeah, then, so yeah, need an event, I don't think we have an account on that one, so Yhang, can you please create an account on that one?

I know Yhang was asking for some pictures, so I was gonna get the... Google Drive, what are that? No, I'm talking about like pictures, she was talking about pictures of the actual space.

Short introduction video, that's for TagVenue.

[@54:47](#) - **Yhang EA (yhangea.kunjolallic@gmail.com)**

Yeah, they want to see like a video, so...

[@54:50](#) - **eriq joy**

That's another thing, well, two things, we did speak on that last week as well. We said we were gonna try to set up a day where we can take pictures of the studio and the things.

Inside of the studio so we can be able to create promotion and put them all inside of the website and put them on the website so we can be able to market them as in the c-stands, the different lights, and all of the amenities of the studio that we offer.

Secondly, I think we definitely need someone to do social media marketing, well social media gaining the content and marketing it.

We don't do anything, we can just really do TikTok reels and different things of that nature as well just to do simple marketing, but we don't even take those tactics.

If someone can go in there and take designated people per week or whatever to go take the videos or whatever and put them inside of a drive so we can have someone designated to put it on the Instagram or whatever the case is.

I think we may need to do that because we might just drift by on days we just go inside of there and we might be cleaning for whatever.

We might not just take no content videos but we actually need things of that nature. all right.

[@56:00](#) - Cre8ContentStudios

all the time and then we don't do it so i think we should capitalize on those two things well yeah i think that's that's a good idea also you gotta double down but the truth is we just need like somebody to fully be thinking about everything about the studio i'm just that's just honest truth like so we don't have to wait for anybody just kind of just gonna go and everybody every one of us on here have something other than that that we're doing so this makes it a little hard um i have the guy that i had take their photos this week i know i had a few options and people that are interested or you know there's another option anyways um um this guy neville that came and took the photos for us on the sunday for the event which went went you know pretty decent um for the most part i mean not for the most but it was decent let's just say that um so yeah he's the pictures he took you know who were very good he was fast he came he set up to tell they brought his own assistant everything was really smooth the way through it everything ran he's everything

I already have the picture since end of day Monday, I've had the pictures he sent back, so yeah, he's very on the inside, he's somebody I'm considering, he sent me a proposal of what he's trying to do, so hopefully he could be that person for us to be the representation, because we need a representation, a representative anyways, who's constantly doing studio every day, or every other day, that's the representative for the studio, because I really want to be hands off, but I ain't gonna lie, I I don't have the time to, to handle all these things, so, but at the same time, I do, I need to happen sooner than I need to move faster than they are, so, I'm willing to spend the money I have to, to make sure I have the right person to help me get to where I need to sooner than later than not, so yeah, anyways, besides that, let's just double down, let's try to get this camera up, let's try to get this AC done, let's get all these little foundationary things done to make sure we're right, we already spoke about the

Set design. We know what we need to go next with that one. The website one needs to be updated.

I think we're pretty straight as far as everything. It's been a good meeting. I appreciate everybody. Is there anything else that anybody else has to say before we get off the line?

No? Okay, cool. So, Yhang, please, after this, please put the meeting notes. think you already started with it. And just, you know, immediately delegate, you know, put everything on ClickUp for everybody.

And if you can, just put the meeting notes on the Slack so everybody can see it. So, please, everybody, please be alert.

So, to know that the meeting notes will come and that you're going to be tagged for certain tasks and stuff that we need completed.

Due dates and everything are not set fully in this organization, but we need to go ahead and get these things done as soon as possible.

That's basically discusses this matter, we need to Hopefully, before the next meeting, we have everything that we've spoken about already done and are already in motion, and yeah, but besides that, thanks again for everything, guys.

We'll talk soon. Reach out if you need to. All right. Take your peace. Thank you, guys. Bye.
